What sets PayAnywhere apart.

Additional reporting options, such as Sales Trends, for merchants to stay up to speed.

Deposits allows merchants to easily keep tabs on their deposit activity.

Merchants are able to view and download any of their processing statements.

Dispute Management alerts merchants of chargebacks and enables them to take action.

The app.

Accept Visa, Mastercard, Discover, and American Express cards.

- 1 Retail theme**
Create a custom item library with categories, modifiers, multiple prices, and stock management.
- 2 Terminal theme**
For quicker transactions, use a simple interface that works like a traditional credit card terminal.
- 3 Tickets & tabs**
Create open tickets, start a tab, and close out when customers are ready.
- 4 Time clock**
Turn your PayAnywhere app into a fully featured time clock with the free Homebase integration.
